Inventor: James A. Anon

Invention: "Optimizations for Live Event, Real-time  
3D Object Tracking"

Attn: Mr. Behrooz Senfi, Art Unit 2613  
Commissioner of Patents and Trademarks  
Washington, D.C. 20231

June 30, 2006

Dear Mr. Senfi:

This communication is regarding Patent Application Serial No. 10/006,444 entitled "Optimizations for Live Event, Real-time, 3D Object Tracking."

As per our phone conversation on this day June 30<sup>th</sup>, I understand that you were recently given my official response (21 pages) to your final office action dated 1/11/06. This document was provided as a part of my official Request for Continued Examination dated and mailed on 6/12/06, which apparently has been entered into the record. However, I also understand that you did not receive two of the attachments to this same document that were also submitted with the RCE. Specifically, the two attachments were:

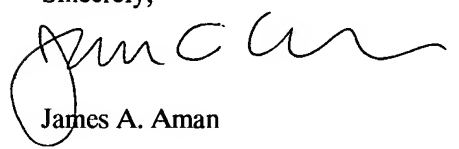

1. The "New Claims" (11 pages), and
2. The "Addendum A – Subject Matter support for Claims 61 and 84" (5 pages).

Therefore, please find accompanying this letter, copies of both of these documents the New Claims and Addendum A, as originally filed in my RCE dated 6/12/06.

As per your advisement, I am both faxing these two documents to you now and also resending them along with this letter to the Mail Stop RCE of the patent office. I am also providing a copy of the postcard I had included with the original mailing on 6/12/06 listing all documents submitted. As you will see, these two missing documents were listed on this post card which was stamped by the PTO as having been officially received.

I respectfully ask those responsible for entering all official documents at Mail Stop RCE, to please enter these two resubmitted documents into the official record to be associated with my original mailing dated 6/12/06. In an effort to help ascertain all necessary information, I am also attaching a copy of the originally filed RCE. If there are any further questions, or any additional information that I must provide in order to be given full benefits of my timely application, please contact me at: 215-353-7333. Otherwise, I appreciate all assistance in this matter.

Sincerely,

James A. Aman
